

GOVERNMENT OF INDIA
MINISTRY OF EARTH SCIENCES
RAJYA SABHA
UNSTARRED QUESTION No. 2582
ANSWERED ON 23/03/2023

Seismological network in the country

2582. SHRI PRABHAKAR REDDY VEMIREDDY:

Will the Minister of Earth Sciences be pleased to state:

- (a) the details of national seismological network and stations situated in the country, with a particular reference to Andhra Pradesh;
- (b) whether all stations are connected with VSAT and having state-of-the-art seismographs; and
- (c) the estimated time the stations will take to disseminate information about earthquake to various stakeholders from the time of its occurrence?

ANSWER

THE MINISTER FOR STATE (INDEPENDENT CHARGE) FOR
MINISTRY OF SCIENCE AND TECHNOLOGY
AND EARTH SCIENCES
(DR. JITENDRA SINGH)

- (a) National Center for Seismology (NCS) under the Ministry of Earth Sciences (MoES), is a nodal agency of the Government of India, for monitoring earthquake activity in the country, maintains the National Seismological Network consisting of 152 observatories at present, spread across the country for round-the-clock monitoring of seismic activity in and around the country. Out of 152 observatories, 6 (Vijayawada, Visakhapatnam, Anantapur, Tirupati, Kurnool, Rajahmundry) are situated in Andhra Pradesh. The state-wise distribution of 152 observatories is enclosed as Annexure-1. Besides National Seismological Network, various national institutions, namely, Wadia Institute of Himalayan Geology (WIHG), Dehradun; CSIR Labs like North East Institute of Science & Technology (NEIST), Jorhat; National Geophysical Research Institute (NGRI), Hyderabad etc; State Governments like Institute of Seismological Research (ISR), Gandhinagar, Government of Gujarat; Karnataka State Natural Disaster Monitoring Centre (KSNDMC), Bengaluru, Government of Karnataka, etc., a few Universities and IITs; and dam authorities like NHPC and River Valley Projects etc. as per dam safety guidelines of Central Water Commission (CWC); etc. are maintaining the seismological observatories as per their technical and research requirements targeting to a particular area of seismic monitoring.
- (b) & (c) In order to improve the real-time seismic monitoring and data collection, all the 152 seismological observatories having state-of-the-art seismographs are provided with a dedicated VSAT/GPRS-modem connectivity to collect the ground motion data in real-time at 24x7 operational center located at New Delhi for quickly estimating the earthquake parameters soon after the occurrences of earthquake. The Operational Centre is equipped with state-of-the-art facilities for data collection, processing and dissemination of earthquake information to user agencies within 5-10 minutes from the time of its occurrence through various modes of communications, such as mobile app (Bhookamp), SMS, Fax, Email, social media platforms like Twitter, FaceBook, WhatsApp and published with value-added products on official website of NCS (<https://seismo.gov.in>).

Annexure-1

Sr.No.	STATION	STATE/UT	LATITUDE	LONGITUDE
